

AXEPLORE

ENERGY SOLUTIONS

ENGINEERED FOR RELIABILITY. DRIVEN BY INTEGRITY.

About Us

Axeplore Energy Solutions is a Malaysian engineering services company specializing in inspection, testing, lifting solutions, mechanical maintenance, and offshore support services.

We provide reliable and cost-effective solutions to the Oil & Gas, Marine, Petrochemical, Energy, Manufacturing, and Heavy Industrial sectors.

Our team consists of experienced personnel with extensive industry exposure in inspection, maintenance, lifting operations, and offshore equipment servicing.

We are committed to delivering services that meet the highest standards of:

- ✓ **Safety**
- ✓ **Quality**
- ✓ **Reliability**
- ✓ **Operational Excellence**

Our objective is to become a trusted engineering partner by providing innovative solutions, technical expertise, and exceptional service performance.

Vision

To become a leading engineering and inspection solutions provider recognized for quality, safety, and technical excellence.

Mission

To deliver reliable engineering services that maximize asset integrity, operational efficiency, and customer satisfaction.

What We Do

Axeplore Energy Solutions provides comprehensive inspection and testing services to ensure equipment integrity, operational reliability, and compliance with international standards.

NDT + ROPE ACCESS

- **Magnetic Particle Inspection (MPI)**
- **Dye Penetrant Inspection (DPI)**
- **Eddy Current Testing (ECT)**
- **Ultrasonic Thickness Measurement (UTTM)**
- **Ultrasonic Flaw Detection (UTFD)**
- **Visual Inspection (VT)**
- **Welding Inspection**

LIFTING GEAR INSPECTION

- **Lifting Gear Inspection**
- **Mooring & Towing Gear**
- **Resocketing Termination**
- **EMAG**
- **Crane Inspection**
- **Winch Inspection**
- **Cable Laid Inspection**
- **Load testing**

STRUCURAL INSPECTION

- **Derrick Inspection**
- **Drop Object Survey**
- **Structural Integrity Assessment**
- **Offshore Equipment Inspection**

Mechanical Work

- **Derrick Inspection**
- **Drop Object Survey**
- **Structural Integrity Assessment**
- **Offshore Equipment Inspection**
- **Tank Cleaning**
- **Blasting & Painting**

What We Do

Axeplore Energy Solutions provides comprehensive inspection and testing services to ensure equipment integrity, operational reliability, and compliance with international standards.

NON-DESTRUCTION TESTING

- **Magnetic Particle Inspection (MPI)**
- **Dye Penetrant Inspection (DPI)**
- **Eddy Current Testing (ECT)**
- **Ultrasonic Thickness Measurement (UTTM)**
- **Ultrasonic Flaw Detection (UTFD)**
- **Visual Inspection (VT)**
- **Welding Inspection**

LIFTING GEAR INSPECTION

- **Lifting Gear Inspection**
- **Mooring & Towing Gear**
- **Resocketing Termination**
- **EMAG**
- **Crane Inspection**
- **Winch Inspection**
- **Cable Laid Inspection**

STRUCTURAL INSPECTION

- **Derrick Inspection**
- **Drop Object Survey**
- **Structural Integrity Assessment**
- **Offshore Equipment Inspection**

WHY US ?:

We prioritize safety in every operation through strict compliance with industry standards and best practices.

Experienced Workforce

Our personnel possess practical offshore and onshore experience across multiple disciplines.

Reliable Service Delivery

We focus on timely execution, technical excellence, and customer satisfaction.

One-Stop Engineering Solution

From inspection and testing to lifting, maintenance, and offshore support services, we provide integrated solutions under one roof.
